Quality Council of India

&

Triveni Turbines Ltd.

On 6 and 7 January, 2011

at

Atria Hotel, Palace Road, Bangalore

About NIQR

Indian Association for Quality and Reliability (IAQR) and National Institute for Quality Assurance (NIQA) were amalgamated into NIQR in July 1987.

NIQR is a registered as a body of Quality Professionals under the Registrar of Societies Act.

The NIQR was incorporated with the objective to bring entrepreneurs and professionals in the field to the higher level of knowledge, thereby enabling them to be worthwhile in the society and ultimately contribute to the WAR AGAINST WASTE.

Activities of NIQR

- To promote quality as a way of life and thus ensure well being of mankind
- To propagate knowledge and awareness of quality and reliability in our industry and service organizations through education and training.
- To help industry to achieve production of goods and services of high quality at low cost in order to make Indian industry globally competitive.
- To provide Training and implementation of Quality Management Systems and accelerate its effectiveness & efficiency
- To organize lectures /seminars/conferences for sharing and dissemination of emerging concepts & methodology on Quality.

Conference Objective

The world is fast-changing, but quality's emphasis to have delighted stake holders in the world is remaining constant. The range and scope of how and where quality principles can be applied is exponentially growing, and it is spreading into more and more aspects of our work and our lives. The fundamentals of quality haven't changed much over the years, but our openness and awareness of where and how quality philosophy & methodologies can be applied has grown.

**Theme of the conference is - "THE EXPANDING THE REACH OF QUALITY"
with a FOCUS on - INNOVATE ► IMPROVE ► INTEGRATE**

The Granularity in the Conference Theme has been arrived at by breaking it into type of applications sector wise and adoption methodology/approach with major thrust on Leveraging Quality for SOCIAL RESPONSIBILITY:

- Manufacturing Sector
- Automotive Sector
- Utility Sector
- Health Care Sector
- Financial Service Sectors
- IT Sector
- IT Enabled Service Sectors
- Education Sector
- Retail Marketing Sector

Deliberations will also evolve around: Emerging Applications of Proven Quality & Reliability Tools in each of these Sectors
